These state of the art microprocessor-controlled color, TFT active matrix LCD monitors accept standard computer interface VGA/SVGA/XGA/SXGA signals. They automatically expand lower resolution VGA (640x480), SVGA (800x600), and XGA (1024x768) formats to full screen resolution XGA (1024x768) on the 15" and SXGA (1280x1024) on 17" and 19" models. These model fully conform to EPA Energy Star and VESA DPMS (Display Power Management Signaling) power management standards

Shown with black bezel.  
Stainless Steel and  
additional color Bezels  
also available.
